

YOUR SOURCE FOR FARM FRESH BEEF!

100% MADE IN USA,
100% KENTUCKY PROUD!

Our "Natural 100% Red Angus Farm Fresh Beef" comes strictly from animals of 100% Red Angus genetics. Calves are born and grown on grass their entire lives and finished on grain for a short time prior to processing. Our goal is for all of our beef to be "dry aged" for 21 days enhancing tenderness and flavor of the final product. Just like fine cheese, wine or bourbon, the aging process is an integral part of producing a superior product that leaves you wanting to come back for more! Locally grown, locally raised!
